

Positive Earth Drivers Club

Parts & Service Directory

APRIL 2021

The purpose of this directory is to help the members of the the Positive Earth Drivers Club find parts and services that they may need. These will help them complete a project or just maintain their British Cars. The club members listed next to the company are not an endorsement of the company. It is recommended that you check with those members to see what their experience was with the company. This is an evolving directory that will be issued periodically with new sources. It strongly recommended that if you come across a new source, that you send it to me, so that the whole club can benefit.

Paul Johnson
